EDUCATION

- National Institute Of Technology (NIT) Jalandhar** Punjab, India
Bachelor of Technology - Data Science; GPA: 7.55 July 2023 - July 2027
Courses: Data Science, Operating Systems, Data Structures, Analysis Of Algorithms, Artificial Intelligence, Machine Learning, Networking, Databases

EXPERIENCE

- Machine Learning Intern** Dec 2025 – March 2026
Quant Power Labs Private Limited
 - Working on time-series forecasting problems related to energy and power consumption.
 - Developed and optimized machine learning models using LightGBM, XGBoost, CatBoost, and ensemble techniques.
 - Built leakage-free data pipelines with lag, rolling, and calendar-based features.
 - Implemented recursive multi-step forecasting for 24-hour ahead predictions.
 - Collaborating with cross-functional teams to improve model accuracy and deployment readiness.

SKILLS SUMMARY

- Programming Languages:** C, C++, Python, JavaScript
- Database Systems:** MySQL, MongoDB
- Frameworks/Libraries:** Pandas, NumPy, BeautifulSoup, Selenium, Matplotlib, Seaborn, Streamlit, Scikit-learn, NLTK, SpaCy, Flask, Scipy, statsmodels
- Tools:** Tableau, Power BI, MS-Excel, Git, MySQL, Google Colab, Google Sheets, MS-PowerPoint
- Platforms and Technologies:** Data Analytics, Data Visualization, AWS, DBMS, NLP, ELT, Machine Learning, Hypothesis Testing, Web Scraping, Statistical Modeling, Feature Selection, Regression Analysis, Deep Learning
- Machine Learning Models :** Logistic Regression, Linear Regression, K-Nearest Neighbors (KNN), Naive Bayes, SVM, Decision Tree, Random Forest, XGBoost
- Soft Skills:** Leadership, Event Management, Public Speaking, Time Management

PROJECTS

- Potato Disease Classification System : TensorFlow, CNN, FastAPI, React, TensorFlow Lite** **GitHub:**
Developed a CNN-based model using TensorFlow with data augmentation and `tf.data` pipelines for efficient image classification of potato leaf diseases. Deployed the model using FastAPI and TensorFlow Serving for scalable backend integration. Optimized performance using quantization and TensorFlow Lite, with frontend built using React JS and React Native.
- Vendor Performance Analysis : Python, Pandas, Matplotlib, Seaborn, SQL, Power BI** **GitHub:**
Performed data cleaning, preprocessing, and exploratory data analysis (EDA) on vendors financial data, sales, and profit data. Created visualizations to highlight vendor performance trends and built a Power BI dashboard that reduced analysis time by nearly 50%, enabling faster sales insights and decision-making.
- Breast Cancer Prediction (Logistic Regression) : Python, NumPy, Pandas, Seaborn, Scikit-learn** **GitHub:**
Developed a logistic regression model on the Breast Cancer dataset to classify tumors as malignant or benign. Performed data cleaning, normalization, train-test split, and evaluation. Utilized NumPy & Pandas for preprocessing, Seaborn for visualization, and Scikit-learn for model training and accuracy assessment.

EXTRACURRICULAR & CERTIFICATIONS

- Deloitte Australia Data Analytics Virtual Internship – Forge (May 2025):** Completed a job simulation that involved forensic data analysis and dashboard creation. Used Excel for classification and Tableau for business visualization.
- Python for Data Science, AI and Development – IBM (Coursera, Aug 2025):** Completed an online course covering Python programming, data analysis, AI concepts, and data science development tools.
- Prefect – Patanjali Rishikul, Prayagraj:** Demonstrated leadership and organizational skills during high school tenure.
- Executive Member – PACE Society, NIT Jalandhar:** Contributed to peer mentorship and development of the coding culture.

HONORS AND AWARDS

- District Rank 4 – Mathematics Olympiad
- State-Level Finalist – Spell Bee Competition
- Qualified JEE – Secured admission in B.Tech Data Science at NIT Jalandhar
- Merit Scholar – Scored 92 in Class 12th
- Final Round Qualifier – "Let's Startup" competition organized by Institution's Innovation Council (IIC)
- LeetCode Rating: 1439 – Demonstrates strong DSA and coding skills
- Secured global rank 942 in CodeChef Starters 203 (Div 3)
